Precision and determination has brought this team together.

The WAI Liberia Chapter has had its own challenges and successes. The challenges were, finding reliable and dependable members that were willing do humanitarian job and the processing of documents with the government of Liberia were the two problems facing this team. Starting from left is Miss. Ama Harris,

work for Brussels Airline, Mrs. Sonie Gongloe work as an accountant, Mrs. Julia Karmo, Major in Airport Management, Mr. David B. Fomba, work as a lawyer, and Miss Roselyn Simpson majoring in Law. Document processing, due to the Pandemic, offices responsible for the processing of legal documents were closed. The process came to a complete halt. However, with determination the team was able to acquire all paper work needed to establish an official chapter. This team is ready to work in 2021. The goals of the team is bring Aviation awareness to young girls in Liberia, develop and train young minds in the area of aviation and recruit more WAI members.
